

Celebrating diversity

**Are we all
the same?**

**What would the
world be like if we
were all the
same?**

**We are all different and this
makes the world a better
place**

What is diversity?

- Diversity means difference
- This room is diverse because we are all different
- There are lots of ways a group of people can be diverse

**How are we
diverse?**

How are you special and different from your friends?

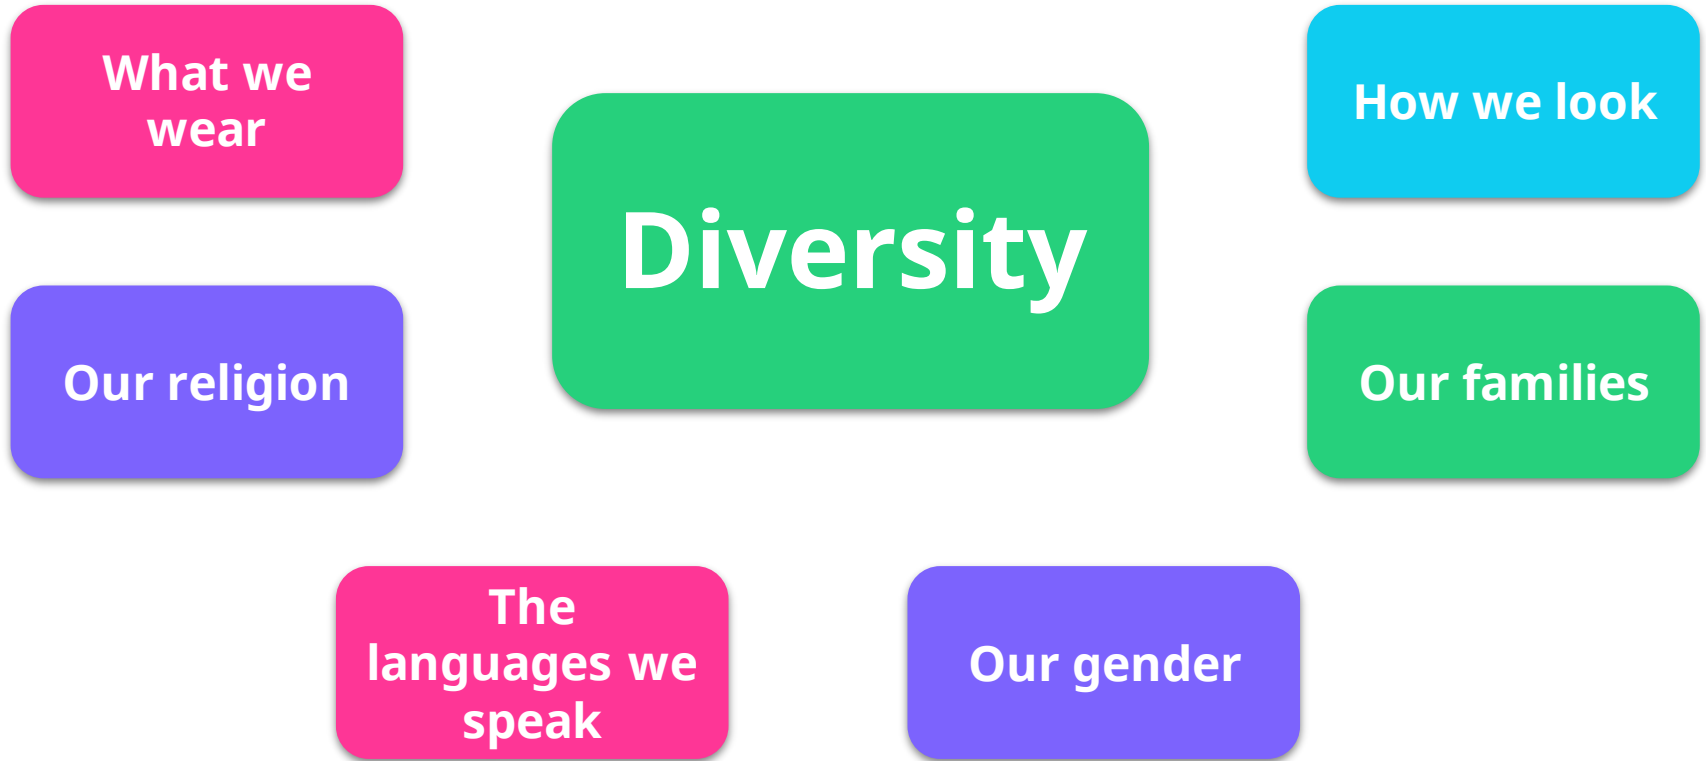

Diversity in our school

Diversity

Diversity in our school

Diversity

- **We are all different and that's something to celebrate!**
- Some people fall in love with someone who is the same gender as them
- Sometimes a woman falls in love with another woman. For example, some people have two mums.
- Sometimes a man falls in love with another man. For example, some people might have two dads.
- Families look different. Families love each other.

School Diversity week

- School Diversity Week is a special week where we celebrate equality for everyone
- We want to celebrate every single person in our school community, no matter who they are or who they love
- We take part in activities to show that in our school no one should be treated differently because of who they are

At our school we celebrate the diversity of our community

- You are all different and this makes you special
- At our school we celebrate the joy of being different to each other
