

November 5th 2015

Dear parents and carers

On behalf of the Governing Body we would like to add an accompanying note to the OFSTED report.

We are pleased that the Ofsted report is really positive, highlights some of our key strengths and acknowledges the progress that our school has made on it's journey to becoming an outstanding school since the previous inspection, particularly in terms of achievement.

Our school was judged under a new and very rigorous Ofsted framework; the report contains many positives, and the two targets that Ofsted refer to, are already in our School Improvement Plan.

We would like to focus on the positives in the report, which acknowledge the significant gains we have made due to the commitment, dedication and hard work of our staff, children and wider school community.

We would like to thank our school community for the continued support.

Regards

Jackie Leadbitter

Tracey Taylor
